District Financial Review

Old Business

We have the Lucas machine and have practiced with it a few times. May have 9 individuals interested in EMT classes, but they do not want to start them at this time so will probably be on hold till fall. Dan talked about a previous personnel issue and resolution. It reminded us of the personal toll the job has on many, when you know the patients.

New Business

Need to schedule a 1<sup>st</sup> responder and CPR class for IVRFD. Will complete needed maintenance on 911 Repeater soon as snow allows. Need to replace batteries for solar storage and back up. People from the New Idaho Falls burn unit will come up to do a burn class, but it is not scheduled yet.
